Shaping a World of Trust

# LIVE Virtual Classroom

**Bureau Veritas** is ready to support you with your training needs, our various training programs are suited for Virtual Classroom delivery with minimal disruption from work. We will support you all the way to achieve your training objectives.

## What is it Virtual Classroom Training?

Virtual classroom is an interactive online live tutor-led training that allows us to train our delegates through an online platform. (eg. thru Microsoft Teams, Adobe Connect)

## Benefits

- ❖ Continuous learning curve - Virtual classroom training can ensure consistency of training needs and learning essentials of employees across organizations workforce.
- ❖ Time and travel efficient - There are significantly reduced travel and accommodations costs for delegates.
- ❖ Cost efficient – reduced fee compared to face to face classroom training.
- ❖ Easy access efficiency – user friendly training platform.
- ❖ Connective live learning – live streaming of training with interactive workshop.

## What is the difference between a virtual classroom and an e-Learning course?

- ❖ The difference is that the virtual classroom course is led by one of our trainers and is live.
- ❖ The delegates can ask questions and interact with the tutor and the other delegates in real time.
- ❖ The platform allows to simulate a real-life classroom training, workshop, exercises, tutor webcam and games to be shared making the experience interactive.
- ❖ Virtual Classroom is live session and it is not recorded.

## What can we offer?

- ❖ Our virtual classroom training being offered are focused on QMS, EMS, OHSMS and IMS training courses.
- ❖ We are ready to deliver exclusive Virtual Classroom trainings specific to any MS or may it be a customized training.
- ❖ Scalable discount for multiple registrations.
